Fit for Job

ABEBA®

ABEBA®

Dear business partners,
dear customers,

in this leaflet we present to you a variety of occupational and safety shoes from the ABEBA product range which were especially designed for medical & health care and pharmaceutical industry.

Particularly in these sensitive areas the top concerns are hygiene, safety and a high degree of wearing comfort. Thanks to many years of experience we can offer you the right shoes for your demands. You'll see that a safety shoe can offer a high wearing comfort and be attractive at the same time.

Use our knowledge - day by day

ABEBA®

ORTHOPEDIC SOLUTIONS ORTHOSTAT AND SENSOSTAT

Well over half of the population are seriously affected by some form of orthopedic condition which result in back, knee, ankle and foot pain.

To tackle this problem ABEBA developed in cooperation with the orthopedic company Doppler (www.doppler-online.com) the individually customized insole Orthostat and the sensorimotor insole Sensostat.

With Orthostat and Sensostat your Abeba occupational shoe or safety shoe remains certified according to EN ISO 20345:2011 or EN ISO 20347:2012 (please refer to individual article description).

ON STEAM®

On steam® is a new breathable high-tech microfiber lining with an absorption capacity of 8 times its weight in water. It offers a maximum comfort and a complete dryness for a perfect foot climate.

Technical characteristics:
▶ Absorbs moisture and desorbs it to the outside
▶ Breathable - antimicrobial - odor avoiding
▶ Temperature regulating
▶ Anti-allergy
▶ CO_2 neutral production
▶ Control of harmful substances according to Öko-Tex Standard 100

✎ micro

✎ micro is a new and innovative high-tech material which is especially water-resistant and breathable. It even surpasses hydrophobic leather. It is washable up to 30°C without shrinking and anti-bacterial, which is making it perfect for the use in hygienic sensitive areas. Additionally it can be equipped with various treatments such as silver ions.

Due to its special structure it is light and smooth but at the same time very tearproof and resistant. ✎ micro replicates leather visually **without** becoming yellow due to direct sunlight.

A®micro

A®micro is a new and innovative high-tech material which
is especially water-resistant and breathable. It even surpasses
hydrophobic leather. It is washable up to 30°C without shrin-
king and anti-bacterial, which is making it perfect for the use in
hygienic sensitive areas. Additionally it can be equipped with
various treatments such as silver ions.

Due to its special structure it is light and smooth but at the
same time very tearproof and resistant. A®micro replicates
leather visually **without** becoming yellow due to direct sun-
light.

OUR
SAFETY SHOES
Your safety is our goal!

In many production steps and works in production the employees are faced with accident and health risks which can only be avoided by internal and organizational actions. If violations of the feet by crashing into something, being trapped or by stepping into something sharp or pointed have to be taken into account, safety shoes are necessary to lower these risks and have to be worn.

On the following pages you find a selection of Abeba safety shoes all certified according to the EN ISO 20345:2011 standard. Whether it is a clog, a sandal, a slip-on or a boot get convinced by the quality and remarkable wearing comfort of Abeba safety shoes!
